

**With MajorFacts you can make Major Decisions...**

## **Proposal**

**MajorFacts aim to give a competitively priced proposal. To be able to do this we need information on the equipment, the site and the operators.**

**We also would need to know the number of shifts and number of working days that the equipment will be available for use.**

**We will put together a comprehensive proposal to cover the following-**

- **Installation**
- **Our Team**
- **Quality Control & Assurance**
- **Continuous Training and Development**
- **Client Training**
- **Product Service & Delivery**
- **Pricing**
- **Workmanship & Warranties**
- **Training of Technicians**
- **System Capability**
- **System Enhancements**
- **Payment Terms & Conditions**
- **A ten point implementation plan**
- **Specification Data Sheet**
- **Partner Sheet**
- **Infrastructure Sheet**
- **Order form**

**The proposal will then be personally delivered to you to be discussed with a Majorfacts employee.**
